MICHAEL BROWN

PRODUCT MANAGER

PROFESSIONAL EXPERIENCE

PRODUCT MANAGER

Jibe | New York, NY and Washington, DC | July 2015 – Present

- Product owner and subject matter expert of Jibe's flagship search and apply products, which process over 300,000 job applications per month for some of the world's largest brands.
- Build consensus and determine product direction based on input from sales, customer success, and engineering.
- Direct Agile scrum ceremonies for search and apply engineering teams while driving towards on-time delivery of key features.
- Facilitate quarterly release planning meetings with engineering to determine level of effort and relative priority of upcoming initiatives.

ASSOCIATE SOFTWARE ENGINEER

Jibe | Washington, DC | July 2014 – July 2015

- Front end developer responsible for building and maintaining the client branded front end for Jibe search and apply.
- Developed new standards, in collaboration with customer success, for client requirements gathering to streamline the branding delivery process.
- In collaboration with core front end engineering team, managed and built the HTML and CSS components of a major search rewrite in 2015.
- Met frequently with customers to guide branding implementation decisions so that Jibe delivered user experiences that met and exceeded expectations.

ELECTRICIAN

Arena Stage | Washington, DC | May 2012 – June 2014

- Led teams of up to six electricians to quickly and accurately implement lighting designs for up to nine productions per year.
- Oversaw day to day operation and maintenance of show lighting systems to ensure continued integrity of the lighting design over four and five week show schedules.

LIGHTING FELLOW

Arena Stage | Washington, DC | August 2011 – May 2012

- Assisted lighting designers on six productions by effectively tracking all elements of a lighting design during the technical production period using tools such as Microsoft Excel, Vectorworks CAD, and Lightwright lighting database software.

EDUCATION

BA, THEATRE DESIGN AND PRODUCTION

University of Northern Iowa | May 2011
